

Improving your job is our first priority

## Website updating

August 2009

WE HAVE UPDATED OUR WEBSITES

Finally on-line!

We have “revisited” our websites ([www.cavitaly.com](http://www.cavitaly.com) and [www.smaisystem.com](http://www.smaisystem.com)), by updating all technical sheets available on-line that can even be downloaded. By now, you can get access to the archive of the newsletters that we e-mail each month to inform you about product innovations or new opportunities the market can offer.

We are sure that this renovation, along with the implementation of dynamic technology, will tickle your curiosity. Should it happen that while you’re surfing our websites something suddenly appears or disappears, don’t worry! Your computer is not going crazy, it’s just us updating our website from our offices!

For this reason we recommend to visit regularly our websites: there’s always something new waiting for you there!

Enjoy the navigation!
